

FAASTeam presents:

# **WINDSHEAR ALERT LOC PREVENTION for GA PILOTS**

A Windshear Toolbox that will arm GA Pilots who fly w/o Alert Equip. with the skills they need to be safer. Designed to prevent LOC due to Unexpected Consequences and keep you a Safe Pilot.

Most GA pilots haven't received flight training specifically aimed at surviving a Windshear event. Learn about Windshear's Very Dangerous Threats, and study How You Can Train to survive them.

Included is a review of both famous Airline Windshear Accidents and Very Recent GA Pilot Windshear Events, plus the comments about them made by the pilots themselves.

Included is a comprehensive picture that illustrates the windshear services that some airports provide, and the equipment that aircraft operators can utilize, as well as the latest technology that can benefit you as a pilot.

**Directions:** Enter the airport from Osborne St. Drive forward to the far section of the parking lot near the pilot's lounge. Free Parking.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
